<b>Office Action Summary</b>	<b>Application No.</b> 10/802,225	<b>Applicant(s)</b> LIM ET AL.	
	<b>Examiner</b> EDMUND H. LEE	<b>Art Unit</b> 1791	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

### DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 10 is rejected under 35 U.S.C. 102(b) as being anticipated by Wang et al (USPN 5348538) set forth in the Office action mailed 4/16/09.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 11-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wang et al (USPN 5348538) as set forth in the Office action mailed 4/16/09.

5. Applicant's arguments filed 7/16/09 have been fully considered but they are not persuasive. Applicant argues that Wang et al do not teach annealing prior to any expansion because Wang et al teach heating during a stretching step. The stretching step of Wang et al does not preclude the tube from being annealed. In fact, Wang et al teach that the stretching "**contributes further to the orientation of the molecules along the length of the tube**" (col 9, lns 29-32; emphasis added). Applicant also argues that Wang et al do not teach a second annealing step, which is performed at a temperature not less than the temperature at which the material is radially expanded.

Art Unit: 1791

First, the instant claims do not recite a second annealing step. Second, Wang et al teach a second heating/anneal step performed in the range of 25-**100C** (col 11, Ins 48-50; emphasis added). Since Wang et al teach a first heating step of 90C (col 9, Ins 25-30) and a second heating/anneal step of 100C, Wang et al meets the limitations of the claimed second heating step.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following US patents teach the state of the art:

2004/0093008, 6656550, and 5681522.
